

ASCENT AEROSPACE

World class Automated Assembly and Machining Systems for industries

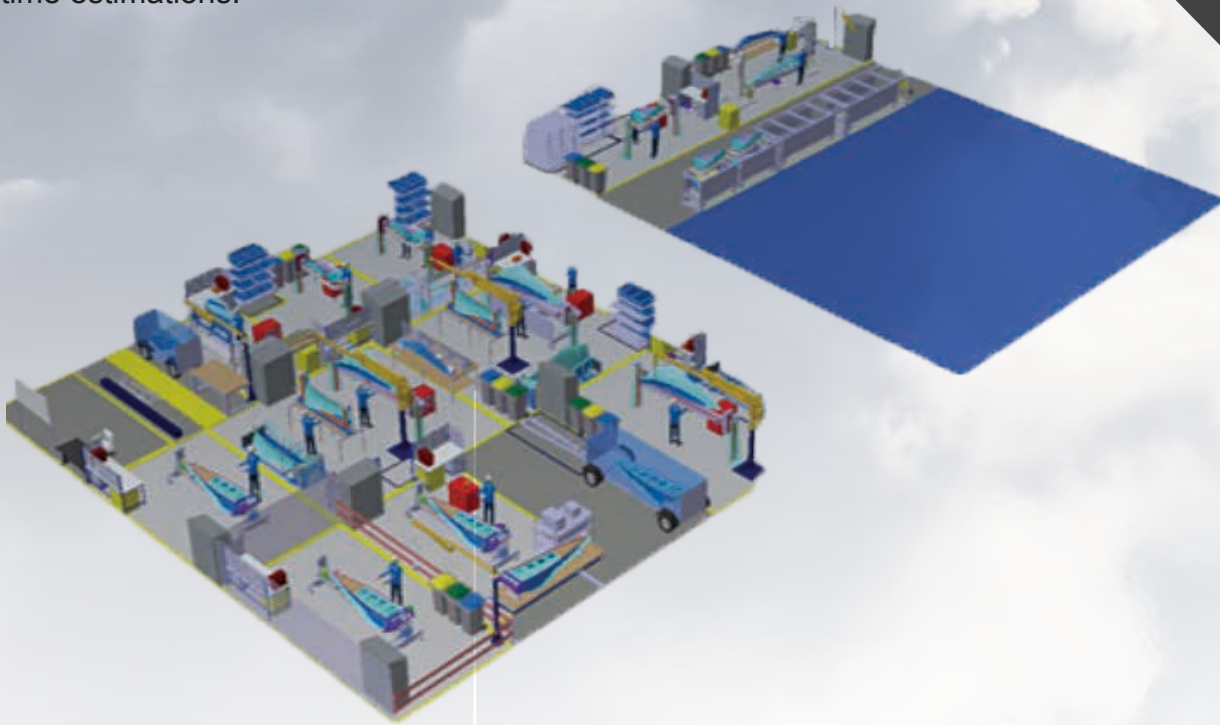

MECHANICAL & INDUSTRIAL STUDIES, DESIGN TO BUILD INTEGRATED ASSEMBLY &
PRODUCTION LINES, DESIGN TO BUILD ON SPECIFIC TOOLS

ASCENT AEROSPACE is a vertically integrated organization that includes resources and capacities that span through process engineering, mechanical & controls design, tooling, and automation Ascent has an in-depth understanding of the customer's needs to ensure the best valued solution

ENGINEERING SERVICES

- Based on our experiences of major industrial projects with Airbus, we help our customers find optimized solutions to their industrial needs, minimize capital expenses and recurring costs while ensuring technical feasibility and performances, providing reliable costs and time estimations.

WHAT WE OFFER

- PRODUCT/PROCESS ANALYSIS
- RATE ANALYSIS
- FLOW ANALYSIS
- TIME ANALYSIS
- LAYOUT
- RESOURCES DEFINITION
- AUTOMATION STUDY
- COST ESTIMATION
- 4.0 SOLUTIONS

YOUR BENEFIT

- OPTIMIZE:
 - COST OF PRODUCTION
 - FLOW
 - SURFACE
 - RESOURCES

RESULTS

- YOUR RATE IS GUARANTEED
- ROI IS INCREASED ► CAPEX
- COST OF PRODUCTION IS DECREASED ► OPEX

INTEGRATION SERVICES

We provide turnkey solutions, complex set of tools, stations, assembly lines for the industry, as well as transfer and upgrading services with an unequalled on-time and on-quality delivery.

OUR SUPPLY CHAIN

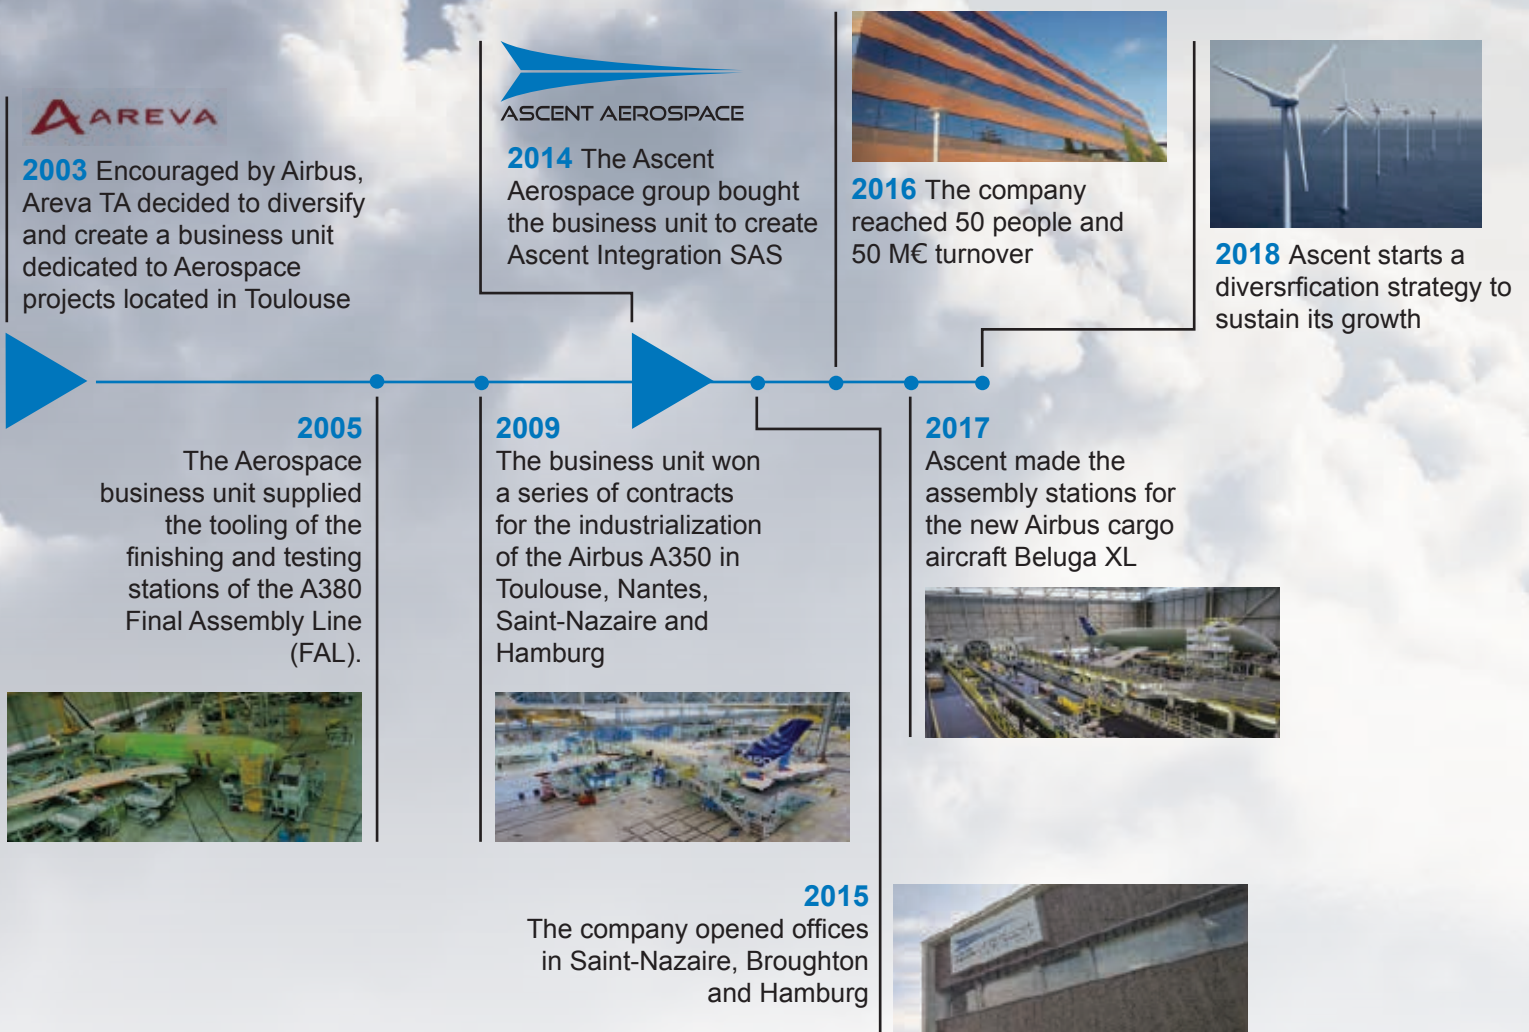

- **300+** homologated suppliers
- **multi-fields**
- **Strategic partners**
- **Low cost suppliers**
- Homologation process & **Regular audit**

Why Choose Ascent Integration?

1

A BROAD RANGE OF EXPERTISE AND SERVICES

- Ascent Integration has **more than 16 years experience** on complex industrial projects providing:
 - » a high degree of expertise in **mechanics, automation and utilities**
 - » a large scope of services that have served more than **50 customers**.
 - » the support of a highly technical and diverse team to allow us to offer additional **products and manufacturing services including mold tools and drilling and fastening solutions**.

2

STRONG AND RECOGNIZED PROJECT MANAGEMENT SKILLS

- We perfectly execute our project thanks to our **very skilled and committed employees**.
- We can address **national as well as transnational projects**.
- We have a very **robust and competitive supply chain** all over Europe.

3

AN UNSHAKEABLE COMMITMENT

- We perform regular progress meetings with our customers in order to deliver on time, on quality, and on cost in full **transparency** on our operations.
- **200+ successful projects** with a high level of satisfaction from our customers.

4

FUTURE ORIENTED

- **A disruptive mindset**, open to new technologies and a creative approach on **smart tools**
